

2008 Young Investigator Award

Dr. Steven Burrell
Queen Elizabeth II Health Sciences Centre
Halifax, Nova Scotia

Dr. Steven Burrell first joined the department of radiology of the QE II Health Sciences Centre in Halifax as a resident in the dual programs of Radiology and Nuclear Medicine and completed a further fellowship year in Nuclear Medicine at Harvard University prior to joining the teaching faculty at Dalhousie University and the QE II Health Sciences Centre.

In the first years following his appointment, Dr. Burrell demonstrated he was an exceptional radiologist, as a clinician, teacher and researcher. He has been the Nuclear Medicine Program Director at Dalhousie University since 2003, and has been an active member in numerous associations: the CAR, the Royal College of Physicians and Surgeons of Canada, Canadian Society of Nuclear Medicine, the Nova Scotia Association of Radiologists and the Nuclear Medicine Technology Program at the QE II and Dalhousie School of Health Sciences.

He is an active participant in the Dalhousie research program and a member of the Radiology Research Committee of the Dalhousie Cardiovascular Research Group. He has 12 scientific presentations and 10 publications to his credit, and has been an invited lecturer at two national/ international meetings and eight regional ones.

Since 2004, Dr. Burrell has been awarded six research grants as principal investigator that total nearly \$188,000. In 2004, he was the Canadian Society of Nuclear Medicine Young Investigator Award winner.

At the 2008 Annual Scientific Meeting of the CAR, Dr. David Vickar, CAR President, was thrilled to introduce Dr. Steven Burrell as winner of the CAR's 2008 Young Investigator Award.
