WORKFLOW

General structure	<p>The Abdominal Imaging Fellowship Program at the Joint Department of Medical Imaging includes the full spectrum of Abdominal Imaging with rotations through the following hospital sites that together, make up one of the largest medical teaching institutions in North America:</p> <p>Mount Sinai Hospital (MSH) Princess Margaret Cancer Centre (PMCC) Toronto General Hospital (TGH) Toronto Western Hospital (TWH) Women's College Hospital (WCH)</p> <p>There are dedicated rotations through MRI, CT, US, image-guided procedures, and CT colonography. Rotations through Obstetrical US, PET and Prostate Center can be arranged if desired.</p> <p>Scheduling is generally structured as follows: Approx 25% MRI, 25% CT, 25% US, 25% other rotations, vacation, etc.</p> <p>State of the art equipment at all sites: 60 ultrasound units, all with color Doppler 13 multidetector CT scanners 10 MRI scanners Research equipment: 1 MRI scanner and 1 PET/MRI unit</p>
Are there times when fellows overlap and share work?	Yes, but as there is a large volume of cases it is not competitive.
How many rounds are you expected to attend? Contribute to?	Attend: Two abdominal imaging rounds per week. Contribute to: Present at Abdominal Imaging rounds twice per year. Participate in MCC rounds (eg GI, Gyn Onc) as desired.
Other than rounds, are there teaching responsibilities?	Yes, informal teaching of medical students and observers on rotation.
How procedure focused is the fellowship?	Moderate focus, 4-week rotations in Biopsy Center, may do more if desired. Can do 1 or more weeks in Prostate Center if desired
Which procedures are you responsible for?	Biopsy center rotations, ultrasound-guided biopsies and drainages.
Additional Comments about Workflow:	N/A

RESEARCH

What are the Research Expectations?	Involvement in research is an expectation of the Fellowship program and one day per week is given as protected academic time.
--	---

How much protected time is given for research (per week)?	One day per week is given as protected academic time.
CALL	
General	Frequency: 1 in 10 (Women's Imaging Fellows included in call pool). On-call days start at noon (regular afternoon workday) and then are 5:00 pm-10:00 pm in-house (on weekends, 12:00-10:00 pm), after which there is home call with staff backup. In-hospital during above hours; afterward from home.
Responsibilities on Call:	General comments: Fellow is reviewing all inpatient and ER studies from JDMI hospitals. Modalities covered: CT, ultrasound, plain films (MRI as needed)
Is there a call stipend?	No
Additional comments about call	N/A
