One page summary of the status of the research project at the time of renewal application, and description of the impact of additional funding.

A summary of peer presentation(s) and peer-reviewed publication(s) pertaining to the original research grant (if this is not possible, the applicant must inform the CRF as to the reason). Examples include:

- a. Presentation at national or international meeting of data generated by the funding. Published abstracts of this work should be highlighted.
- b. Hypothesis-driven publications in Tier 1 Specialty or Sub-Specialty Journals, which could be imaging or clinical in nature. Examples would include not only 'Radiology' and 'AJR', but also 'Skeletal Radiology', 'Journal of Digital Imaging', 'Gut', 'Neuroradiology', etc. The original grant recipient should be first author, senior author, or second author, the latter in the case of projects which involve residents or fellows as first author.

I have read, understood and agreed on the **CRF Grant Rules and Regulations**.
