**Fellowship Coordinator/Administrator:**

Avril D'Silva Tel: 613-737-8899 ext. 73249 [adsilva@toh.on.ca](mailto:adsilva@toh.on.ca)

### WORKFLOW

**General structure**

Sited at the General Hospital (where many screening mammograms and MRIs are performed). Each day the fellow is assigned to something different.

- Monday: Breast work-ups
- Tuesday: Breast MRI
- Wednesday: US biopsies + localizations
- Thursday: Mammogram screening
- Friday: Stereotactic biopsies

**Are there times when fellows overlap and share work?**

No, as there is only one fellow. Usually two residents are also on breast, but everyone is assigned to different things each day so there is no competition.

**Other than rounds, are there teaching responsibilities?**

The fellow participates in and leads presentations at multidisciplinary Breast Diagnostic Rounds (Monday), multidisciplinary Breast Oncology Group Rounds (Tuesday) and Breast Imaging Interesting Case Rounds (scheduled sporadically).

**How procedure focused is the fellowship?**

Moderate focus
