

CAR 2019

POST CONFERENCE HIGHLIGHTS

Canadian Association of Radiologists
L'Association canadienne des radiologistes

Welcome/Bienvenue

We would like to thank all the delegates and sponsors for participating in another successful conference, and to extend a very special thank you to all of the speakers that made the CAR 2019 a tremendous success. CAR 2019 attracted radiologists and other medical imaging professionals from across the country. We were fortunate to have a large number of engaged industry partners and dynamic speakers.

One of the most memorable highlights of CAR 2019 was the Hot Topics session focused on Bias in Data Collection in Artificial Intelligence. This panel discussion featured industry, legal and radiology experts who provided their vision for AI and its future in medicine as it pertains to ethical and legal considerations specific to radiology.

NETWORKING

CAR 2019 provided plenty of opportunity for socializing and networking including the CADTH-sponsored 5K run, CAR Opening Reception, Resident In-Training Reception and Vendor Cocktail. Never before have we seen such a high level of engagement between delegates and industry partners.

INVESTING IN RADIOLOGY

The Canadian Radiological Foundation (CRF) supports excellence in radiology through research, grants and education. At CAR 2019, the CRF launched its 500 Club. Delegates and industry had the opportunity to learn more about this new initiative in the CRF Donor Lounge, where members of the CRF Board of Directors welcomed people to relax and enjoy refreshments. The CRF was successful in raising \$30,000, a huge achievement! The 500 Club is interested in working with industry partners to advance the CRF mission to support radiology innovation in Canada and beyond.

SPONSORSHIP

With over 28 industry supporters, the CAR 2019 achieved a new threshold for sponsorship. We were fortunate to have influential market leaders at our event and the opportunity to network with over 500 delegates. CAR 2019 provided the prime opportunity for our CAR Board members, key decision makers and leaders in the radiology to connect and share best practices.
