**Diagnostic Neuroradiologist
Department of Diagnostic Radiology
Queen's Health Sciences, Queen's University**

Permanent Full-Time Academic Position

WHO SHOULD APPLY?

The Department of Diagnostic Radiology within the School of Medicine, Queen's Health Sciences at Queen's University and its affiliated teaching hospitals are seeking a full-time Academic Radiologist with Fellowship training in Neuroradiology. The preferred candidate will exhibit strong potential for innovative and scholarly research or will have an excellent track record of high quality research output that demonstrates potential for independent research. Interest in Endovascular Interventional Procedures are also considered an asset. Interventional Neuroradiology, Advanced Brain Tumour Imaging with MR Perfusion and Spectroscopy, and Epilepsy, and Head & Neck imaging are specific targeted growth areas within the institution. With the new 3T MRI, interest in functional MRI applications would be of value. Candidates must display evidence of an ability to work in an interdisciplinary, collaborative environment.

With the academic component of this position, there is an expectation of participation in undergraduate medical education, residency training, and research. The successful candidate will also participate in the supervision of the Neuroradiology fellow. Candidates must demonstrate strong potential for outstanding teaching contributions.

Clinical responsibilities would include Lumbar punctures and Spinal Procedures, Carotid and Transcranial Dopplers, Neck U/S, CT, and MRI Reporting, including Acute Stroke CT interpretation. Advanced MRI services provide at KHSC includes MR Perfusion, MR Spectroscopy and MR CINE imaging. There is a small yet significant Head and Neck Cancer Service. The Neuroradiology Section provides Diagnostic Pediatric Neuroradiology service as well. There is a strong collaboration with specialists through Neurology, Neurosurgery, Neuropathology, Ophthalmology, Neuro Genetics, Neuro Science, Brain Tumour Multidisciplinary, and Head & Neck Multidisciplinary Rounds. Participation in the Neuroradiology On-call schedule will be required.

KINGSTON HEALTH SCIENCES CENTRE OVERVIEW

The Academic Radiologist will join 28 radiologists in the Department, who provide clinical service to a population of approximately 600,000 in Southeastern Ontario in two teaching hospitals, Kingston Health Sciences Centre (KHSC), and Providence Care. This practice is centered at Kingston Health Sciences Centre Kingston General Hospital site, a 450-bed acute care hospital. At KHSC, there are 2 Siemens MRI scanners (3T VIDA and 1.5T MRI). There are 2 64 slice CT scanners, and a soon to be installed state-of-the-art DE Canon CT scanner.

The Neuroradiology section also provide diagnostic neuroradiology service to Kingston MRI Inc., where there are two 1.5T Philips MRI scanners, responsible for a large volume of out-patient neuroimaging.

QUEEN'S HEALTH SCIENCES OVERVIEW

Queen's Health Sciences at Queen's University strives to develop an inclusive ecosystem that attracts the best talent from diverse fields, including cardiovascular disease, medicine and surgery, nursing, and healthcare economics. This ecosystem will promote excellence in patient care and will drive high impact clinical science and education research.

Queen's University is recognized nationally for the quality of its undergraduate and graduate programs, which attracts outstanding students. Queen's University is an integral part of the vibrant Kingston community in the heart of the Thousand Islands region of southeastern Ontario. It has a community spirit and amenities unmatched by any other Canadian university. The University and the region offer an outstanding academic and community environment (www.queensu.ca).

VACCINATION REQUIREMENTS

Prior to May 1, 2022, the University required all students, faculty, staff, and visitors (including contractors) to declare their COVID-19 vaccination status and provide proof that they were fully vaccinated or had an approved accommodation to engage in in-person University activities. These requirements were suspended May 1, 2022. However, they remain in effect for students, staff, and faculty in workplaces, including hospitals, where patient care is provided and/or where the work duties or educational requirements of the position involve or support patient care.

APPLICATION REQUIREMENTS

Qualified applicants must either hold or be eligible for certification in diagnostic radiology from the Royal College of Physicians and Surgeons of Canada, have undertaken fellowship training, and be eligible for licensure with the College of Physicians and Surgeons of Ontario.

The University invites applications from all qualified individuals. Queen's is strongly committed to employment equity, diversity, and inclusion in the workplace and encourages applications from Black, racialized/visible minority and Indigenous/Aboriginal people, women, persons with disabilities, and 2SLGBTQA+ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority. To comply with Federal Laws, the University is obliged to gather statistical information about how many applicants from each job vacancy are Canadian citizens/permanent residents of Canada, applicants need not identify their country of origin or citizenship, however, all applicants must include one of the following statements: "I am a Canadian citizen/permanent resident of Canada" OR, "I am not a Canadian citizen/permanent resident of Canada". Applications that do not include this information will be deemed incomplete.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. If you require accommodation during the interview process, please contact us at the address below for assistance in making suitable arrangements.

The review of applications is on-going and will continue until the position is filled. Applications are to include a letter summarizing expertise, qualifications, and accomplishments relevant to the position, a CV, links to at least three recent and related publications, and three letters of reference (sent directly from referees to the Department).

Applicants are encouraged to send all documents in their application packages electronically as PDFs to Omar Islam at Omar.Islam@kingstonhsc.ca, although hard copy applications may be submitted to:
