

Pediatric Radiologist - Kingston Health Sciences Centre

Locum Tenens

Flexible choices of single or multiple weeks starting July 2023 – July 2024.

The ideal candidate will participate in the reporting of all general pediatric radiology plain films, ultrasounds, CTs and MRIs, as well as in the performance of GI/GU procedures. Pediatric neuroradiology and pediatric nuclear medicine coverage is not needed. The candidate will also be responsible for the reporting of some of the Outpatient and Urgent Care adult ultrasounds, as well as plain films from the local extended care facility. Weekday pager on-call coverage (no reporting requirement) is expected.

Clinical service is provided to a population of approximately 600,000 in Southeastern Ontario in two teaching hospitals, Kingston Health Sciences Centre and Providence Care. This locum tenens will work out of the Hotel Dieu Hospital and Kingston General Hospital sites, the latter a 450-bed acute-care academic hospital.

We are looking for an enthusiastic individual who wishes to provide excellent clinical services in a collegial and collaborative work environment.

Interested candidates for this position should forward a cover letter, curriculum vitae and a list of 3 references to Dr. Omar Islam (omar.islam@kingstonhsc.ca).
