

Fellowship-Trained Body Imaging Radiologist

Prairie Skies Medical Imaging is Regina's largest imaging practice.

Owned by local radiologists, we have been providing comprehensive imaging services in 5 community-based clinics, two acute care hospitals and multiple Southern Saskatchewan health centres for more than 50 years.

Prairie Skies offers above average earning potential in a dynamic work environment and a diverse practice opportunity in both community and acute care facilities.

Regina is a vibrant culturally diverse city offering a variety of amenities, cultural and sporting activities, parkland, and an international airport. You will enjoy numerous employment and lifestyle opportunities for both you and your family, short commute times, and Saskatchewan's low cost of living that is the envy of many other provinces.

The Opportunity: Prairie Skies Medical Imaging is seeking a Fellowship-Trained Body Imaging Radiologist

Applicants will be expected to do all aspects of body imaging, including all areas of body CT and MRI. Proficiency with obstetrical imaging will be viewed favourably.

Opportunities are available for research, rounds, teaching, and appointment as Associate Professor in the University of Saskatchewan. The candidate will have the opportunity to grow his or her breast practice as the team lead by determining and implementing best practice and policy.

This is a full time, partnership track position that covers primarily daytime shifts with equitable evening and weekend call responsibilities and above average earning potential.

Qualifications:

- Eligible for licensing with the College of Physicians and Surgeons of Saskatchewan (CPSS)
- Fellow of the Royal College of Physicians and Surgeons of Canada (RCPSC) (or eligible)
- International Medical Graduates are welcome and encouraged to apply.
- Proof of COVID-19 vaccination will be required to become a member of Practitioner Staff and provide care in Saskatchewan Health Authority facilities.
