

Radiologist Opportunity – Edmonton, Alberta

Canada Diagnostic Centres is seeking a skilled and versatile radiologist for a rewarding and well compensated career as a consultant within our growing outpatient clinic practice in Edmonton, Alberta

Start date is flexible but prior to November 1st 2023 is preferred.

Remuneration monthly based on a fixed share of fee for service billings. Vacation is highly flexible.

The ideal candidate should:

- Be proficient in adult and general pediatric radiography;
- Be proficient in general body ultrasound, Obstetrical ultrasound, Vascular ultrasound, MSK ultrasound, and Breast ultrasound;
- Be proficient in or demonstrate aptitude for basic image-guided MSK and spine procedures for pain management, under both fluoroscopy and ultrasound as applicable;
- Be proficient in breast imaging, including screening and diagnostic mammography;
- Able to, or willing to learn and perform DEXA BMD and adult esophograms/UGI;
- Be comfortable in the clinical care of patients as required including history, physical exam, and counselling, including but not limited to women's health issues;
- Be comfortable in the emergency care of unwell patients;
- Be able to successfully manage and cultivate relationships with fellow radiologists and staff, referring physicians, and patients alike.

Onsite training can be arranged for some of these areas. Please let us know as required.

Requirements:

- Fellow of the Royal College of Physicians and Surgeons of Canada, Diagnostic Radiology or equivalent
- Up to date CPR certification
- College of physicians and Surgeons of Alberta licensure or eligibility, Diagnostic Radiology
- Canadian Association of Radiologists mammography accreditation or eligibility
- CMPA membership
- Eligible for an Alberta Health billing number and practitioner ID

Canada Diagnostic Centres is the premier provider of both diagnostic imaging and image-guided procedures in Western Canada, owning and operating 38 radiologist-led community clinic sites throughout the Edmonton, Calgary, and Saskatoon metro areas; across rural Alberta and Saskatchewan; and one in Vancouver.

CDC offers a full range of services including MRI, CT, Ultrasound, Echocardiography, Nuclear Medicine, Mammography, X-ray, Bone Density, GI Fluoroscopy, image guided biopsies, and sophisticated pain management procedures.

We are a contracted provider of services to Workers' Compensation Board Alberta, the official diagnostic imaging provider to Alberta Ballet, and contribute to numerous other charitable organizations in the communities we serve.

We proudly support both the SAIT and NAIT technologist training programs as just part of our ongoing commitment to professional development, and continuous quality improvement through education.
