

Canadian Teleradiology Services (CTS) is a leader in the teleradiology space. We are Canada's largest teleradiology company, with great opportunities. We provide remote radiology reading for hospital emergency rooms with a specialty in after hours and overnight coverage.

- Work from the comfort of your home.
- We provide CT, X-ray, US reading and more. Overnight work is required, with 60-minute STAT turnaround time, and includes premium pay on P-fees.
- The remote radiologist must have a deep understanding of anatomy, pathology, and medical imaging techniques to accurately interpret the images.
- Communication skills are essential, working closely with hospital technologist, ER physicians and more.
- Be part of a team that provides emergency radiology readings for hospitals in remote communities.
- CTS provides 24-hour support, flexible schedules, with different workloads available for full and part time positions.
