

## **General Radiologist- Nanaimo, BC**

We are seeking dynamic Radiologists to join our group practice situated on mid Vancouver Island.

Our group of 10 Radiologists provide imaging services to a catchment area of approximately 300,000. We are based out of a 365 bed regional hospital with remote coverage of 2 general hospitals and an acute care center, as well as a privately owned outpatient clinic. The practice includes all areas of General Radiology including fluoroscopy, US, CT, MRI, IR, nuclear medicine and breast imaging. Specialty training would be an asset but is not required.

Nanaimo is a rapidly growing community situated on the east coast of Vancouver Island. The temperate climate allows for year round recreational opportunities with world class mountain biking, kayaking, golfing, sailing and surfing.

Candidates must hold valid Royal College of Physicians and Surgeons of Canada certification in Radiology (FRCPC) and be eligible for full licensure with the College of Physicians and Surgeons of BC.

Interested parties are invited to email and submit a CV to Dr. Brent Carson
