

## **Newfoundland and Labrador Health Services (NLHS)**

### **NON-INTERVENTIONAL RADIOLOGIST**

#### **FULL TIME EMPLOYMENT**

#### **MEDICAL IMAGING PROGRAM**

**NL Health Services, Urban Zone, St. John's, Newfoundland**

### **About US**

NL Health Services, Urban Zone offers the full continuum of health and community services including public health, long-term care, community services, hospital care and unique provincial programs and services. NL Health Services prides ourselves on providing the highest quality care and service possible to the people in our communities, in our region, and in the province. To do that, we employ qualified, competent, and caring individuals who are dedicated to their professions.

### **Job Summary**

The Diagnostic Imaging Program of NL Health Services Urban Zone invites expression of interest for two full-time Radiologists in St. John's, Newfoundland and Labrador. All interested applicants are encouraged to apply. This is a great opportunity to join a well-established practice of passionate and highly skilled radiologists, while living in a medium sized city which offers a fantastic balance of outdoor activities, culture and a great food scene.

The successful candidates will join a group of 10 Radiologists working at St. Clare's Mercy Hospital (SCMH). SCMH is the provincial tertiary care center for ENT, Breast, Thoracic and Vascular surgery and is also a teaching hospital affiliated with Memorial University of Newfoundland School of Medicine and their Radiology Residency training program giving opportunities for research and teaching to the incumbent.

This radiology group offers a busy service in CT, MRI, US, Mammography, Angio-interventional, Fluoroscopy and General radiology, with a full scope of image guided procedures. The successful candidate will be expected to work as a general radiologist but not necessarily in all the areas listed above. If the candidate has additional specialty training in any field, these skills would be of an added benefit and utilized. There is a call expectation as well and responsibilities are shared with the Radiology Resident - Core services include general radiography, ultrasound, CT, MRI and basic interventional radiology. Breast imaging is also provided as a service and would be open to candidates with appropriate training and experience. Ability to perform non-

vascular interventional procedures such as percutaneous abscess drainage would be an asset. Fellowship training would also be an asset.

Rotating coverage includes off-site home reporting. The primary location is Belleville General Hospital, which lies between the beautiful Counties of Hastings and the vineyard region of Prince Edward County. On-site presence is also provided at Trenton Memorial Hospital.

All candidates must be RCPSC certified and fully licensed.
