

Health PEI is seeking a permanent full-time General Radiologist to join the provincial Department of Diagnostic Imaging.

Based out of the [Queen Elizabeth Hospital](#) in Charlottetown, PEI, the physician shall join a group of nine Radiologists providing provincial coverage at two provincial hospital sites, in a fully equipped community practice.

- The candidate is expected to provide the full scope of Diagnostic Imaging. The candidate must be comfortable with interpretation of General X-ray, Ultrasound, Fluoroscopy, CT, and MRI. Ability to interpret Nuclear Medicine would be an asset.
- The candidate is expected to have a general interventional skill set which includes ability to perform basic tissue biopsies in addition to other image-guided procedures such as abscess drains, paracentesis, thoracentesis, etc. Ability to perform lung biopsies would be an asset.
- All after-hours imaging is currently provided by a teleradiology service. However, the local radiologists provide backup call in the event the service is disrupted. The candidate is therefore expected to participate in the backup call schedule. In the event of interruption of teleradiology services, the candidate would be required to participate in after-hours call coverage.

Hours of Work

Full-time hours based on
1.0 FTE.
