

Radiologist Opportunity – Edmonton, Alberta

The Opportunity

Embark on a rewarding career with Canada Diagnostic Centres (CDC), a trailblazer in diagnostic imaging since 1993. Excellence in patient care fuels our passion. As a leading provider of diagnostic services and image-guided procedures in Western Canada, we take pride in our 43 radiologist-led community clinic sites strategically positioned across Alberta, Saskatchewan, Ontario, and British Columbia. Join our dynamic team and contribute to our comprehensive suite of services, including MRI, CT, Ultrasound, Echocardiography, Nuclear Medicine, Mammography, X-ray, Bone Density, GI Fluoroscopy, image-guided biopsies, and state-of-the-art pain management procedures.

At CDC, we prioritize providing access to high-quality patient care in our modern, multi-modality clinics. We're extending an invitation to skilled and versatile Radiologists to join our growing outpatient clinic practice.

Foster a culture of perpetual learning and embrace change with us. Our commitment is to refine our scalable platform, leading the way in advancing imaging in Canada.

Experience a highly rewarding and well-compensated role with us, without scheduled weekend or evening shifts and no on-call responsibilities. Our warm and welcoming facilities, modern equipment, and experienced technologists create a challenging yet fulfilling work atmosphere.

Enjoy a supportive and flexible work environment where your contributions are valued. Our radiologists, many with sub-specialty expertise, are all dedicated to delivering excellence in patient care. Our technologists, members of reputable bodies including Sonography Canada and the Canadian Association of Medical Radiation Technologists (CAMRT), are graduates of accredited programs.

Our current equipment includes IntelePACS, InteleRIS 7, and Dragon, with an exciting transition to a full Powerscribe One and WFO environment in early 2024, driven by Khailo worksheets and MedInformatix RIS.

Embark on your journey with us at CDC, where you become an integral part of our service delivery team, providing excellence in patient care!

What You'll Be Doing

- Planning, supervision, interpretation, and reporting of diagnostic imaging studies to advance the medical and surgical care of patients referred to us.

- Collaborate effectively with a team of accomplished medical professionals, including technologists, nurses, medical office assistants, Radiologists, Physiatrists, and Perinatologists.
- Cultivate strong patient relationships through effective communication, empathy, and a patient-centric approach.
- Develop superb relationships with referring physicians to inspire their confidence in our ability to support them in caring for their patients, including formal and informal CME.
- General body ultrasound; MSK, breast, obstetrical, and vascular ultrasound.
- Image-guided MSK and basic spine procedures for pain management, under both fluoroscopy and ultrasound as applicable.
- Screening and diagnostic mammography
- General radiography
- Bone mineral densitometry

What We're Looking For

- Fellow of the Royal College of Physicians and Surgeons of Canada, Diagnostic Radiology, or equivalent
- College of Physicians and Surgeons of Alberta full licensure eligibility, Diagnostic Radiology
- Canadian Association of Radiologists mammography accreditation or eligibility
- CMPA membership
- Eligible for an Alberta Health billing number and practitioner ID
- Exhibit excellent communication skills, both with patients and a multidisciplinary medical team

What We Offer

- Location Flexible
- Weekends and evenings off
- No on-call work
- Flexible Start date
- Flexible vacation
- Benefit from opportunities for professional advancement and continuing medical education.
- Remuneration for this position is provided as a fixed percentage of the fee for service billing, which is stable, recurring, and highly competitive.

Life at CDC

Canada Diagnostic Centres is the premier provider of both diagnostic imaging and image-guided procedures in Western Canada, owning and operating 43 radiologist-led community clinic sites throughout Alberta, Saskatchewan, Ontario and British Columbia. CDC offers a full range of services including MRI, CT, Ultrasound,

Echocardiography, Nuclear Medicine, Mammography, X-ray, Bone Density, GI Fluoroscopy, image guided biopsies, and sophisticated pain management procedures. Canada Diagnostic Centres is committed to attracting and developing a diverse and inclusive workforce. While we encourage all applicants to apply, only those selected for an interview will be contacted. Applicants must be legally entitled to work in Canada.

We are a contracted provider of services to Workers' Compensation Board Alberta and contribute to numerous other charitable organizations in the communities we serve. We proudly support the SAIT, NAIT, and multiple additional technologist training programs as just part of our ongoing commitment to professional development, and continuous quality improvement through education.
