

Remote Tele-Reporting Radiologists

- **Reporting from the comfort of your own home**
- **You pick when you report to enjoy your work life balance.**
- **FRANZCR Radiologist only need apply**

IDXt has an opportunity for **remote tele-reporting Radiologists** to join for homebased reporting to cover private and public patient cases in Australian & New Zealand. Jump onboard to start enjoying your work/life balance to tele-report with IDXt!

- Choose your schedule - Daytime, mornings, after hours, weekends, or nighthawk reporting cases in general, acute to subspecialised reporting.
- Choose your location – Australia, New Zealand, UK, Canada, Spain, Europe + more!

Short-term or long-term arrangements available to provide tele-reporting services, interpreting medical images, and delivering accurate and timely reports. Earn additional income without leaving the comfort of your own home - Let us know about your availability to report!

IDXt offers:

- Flexibility to work the hours & location that suits you.
- Radiologists to pick reporting cases according to credentials, sub-specialty, workload, availability.
- A mix of hospital and private practice cases
- Reporting platform is designed and built with tele-radiology in mind which works across multiple RIS/PACS providers.
- Valued VR reporting system to ensure that your reporting quality is achieved.
- Competitive piece meal rates
- High speed fully maintained workstation provided.
- 24/7 radiologist support and IT services.

Who is IDXt? IDXt (Integral Diagnostics Tele-reporting) provides tele--radiology services to over 90+ clinics, servicing over 50+ public hospitals, private medical facilities, and community centres and a means to access the skills of 220+ IDX radiologists.

By drawing on the resources and expertise of radiologists across Australia and New Zealand plus worldwide; IDXt strives to be a leading provider of quality diagnostic imaging services with a focus on delivering the best health outcomes for our patients.

You will need AHPRA (Australian registration) and hold a FRANZCR fellowship with the Royal College of Australia and New Zealand (RANZCR) to be eligible to report for Australia. **DWS restricted FRANZCR Radiologists based in Australia are welcome.
