

Diagnostic Radiologist - Winnipeg

Manitoba X-Ray Clinic, Winnipeg, Manitoba

Manitoba X-Ray Clinic is currently seeking a radiologist who is Royal College of Physicians and Surgeons of Canada (RCPSC) certified in Diagnostic Radiology for short term and long term (available from 6-12 months), with partnership track opportunity.

Position:

The position is for a diagnostic radiologist to join our primarily hospital based practice. The group provides service for St. Boniface, Grace, Concordia and Misericordia hospitals and an outpatient sports medicine facility. The hospital practices are high volume and include CT, X-ray, ultrasound, fluoroscopy and MRI (at our two tertiary facilities). General call duties are expected and include coverage of CT, US and Xray during the evening and weekends throughout the year. Call duties are split between all members of the group. Competitive remuneration is offered. Fellowship and non-fellowship trained applicants are welcome to apply. Candidates must have board certification in Diagnostic Radiology by the RCPSC by their start date.

Group:

Manitoba X-Ray Clinic (MXC) is a highly cohesive and collegial group of 20 academic subspecialty and general radiologists. Both St. Boniface and Grace Hospital are tertiary care centres. The group is affiliated with the University of Manitoba and radiology residents are trained through St. Boniface Hospital.

City:

Winnipeg is a young and vibrant city with an affordable cost of living. Come and visit the cultural capital of Canada which hosts several festivals throughout the year and is home to the world renowned Canadian Museum for Human Rights, the Forks, a beautiful winter river skating trail and several professional sports teams.

To Apply:

All interested and qualified candidates should submit their curriculum vitae to:
Dr. Lisa McPhee - Chairman, MXC at "info@manxray.com"
