

Discover New Zealand: A Perfect Place for Overseas Radiologists

- Join a newly established private clinic equipped with state-of-the-art imaging technology.
- Competitive salary starting at NZ\$450K, six weeks annual leave, and a comprehensive relocation package.
- Embrace a family-friendly community with a rich history, affordable housing, and a vibrant cultural scene.

We're excited to offer this fantastic opportunity for a General Radiologist with MSK to join an innovative private practice in Whanganui, New Zealand, opening in 2025. This role is integral to enhancing health services in the region, playing a vital part in delivering high-quality imaging to the local community.

Whanganui, a vibrant city of 65,000 in the North Island, offers a blend of natural beauty with a strong community spirit, ideal for doctors seeking a new adventure. You'll work in a cutting-edge facility, handling a variety of modalities. You'll collaborate within a dedicated team and benefit from clinical feedback and support from local and nationwide colleagues.

Located at the Whanganui River's mouth, Whanganui offers a lifestyle rich in outdoor activities like rowing, kayaking, and cycling. Stunning Mount Ruapehu is just two hours away for skiing and adventure. The charming Victoria Avenue adds to the city's appeal with its Edwardian architecture, boutique shops, and vibrant cafes.

To apply, you will have five years of postgraduate radiology training and a subspecialty fellowship or equivalent experience. In New Zealand, you can work as a Specialist without additional exams, and the pathway to permanent residency is straightforward!

Experience a welcoming community and a perfect work-life balance, connect with me and make Whanganui your new home!
