

Radiologist Specializing in Women's Health – Edmonton's Community-Based Diagnostic Imaging Clinic

Job type: Flexible, Full-time, Part-time

Location: Edmonton, Alberta

MDSearch is looking for a Radiologist with a focus in women's health to join a physician-owned and operated community-based Diagnostic Imaging clinic in Edmonton. The clinic specializes in performing obstetrical ultrasound in a trauma-informed way, with a focus on women's health and openness to expanding their services in this area.

The successful candidate must be passionate about improving the standards of care for women and helping to change the way that imaging is provided to women in our communities. This is a community practice accredited as a Diagnostic Imaging facility with the CPSA (billed fee for service with Alberta Health).

The successful candidate will work alongside OBGYNs/Maternal-Fetal Medicine subspecialists and MFM trained sonographers and nursing staff. The Women's Health Imaging Specialist will be responsible for reviewing ultrasound images, reporting the findings, and consulting with patients as indicated within scope of practice. Additional tasks are needed as per the CPSA standards of practice.

This position is more than for women's health imaging. As a new clinic looking to expand and building new spaces, the clinic is searching partnership with radiologist to increase the scope of services offered. The ideal candidate is entrepreneurial and will be participating in developing new services under their brand.

Requirements

- Have a desire to help grow this area of women's health in the community.
- Be in good standing (or eligible) with the College of Physicians and Surgeons of Alberta.
- FRCSC or FRCPC or eligible.

Benefits

- Partnership track opportunities.
- Competitive compensation and flexible schedule.

- Opportunity to work in a brand new modern and nurturing professional environment.
- Opportunity to practice medicine according to your values and dreams.
- Create your own ideal practice through entrepreneurship.

Relocation support available for candidates from other provinces (full-time commitment required)

About the clinic

This community-based Diagnostic Imaging clinic is locally owned and operated by physicians and focuses on performing obstetrical ultrasounds with a trauma-informed approach. It is the only clinic in Edmonton and the surrounding areas that offers advanced ultrasound services by a Maternal and Fetal Medicine specialist.

The clinic specializes in women's health, perinatal health, dedicated pregnancy ultrasounds, maternal assessments, and comprehensive screening protocols aimed at improving the health of women and babies.
