

## **Staff Radiologist – Assistant Professor**

**Regular Full-Time (1.0 FTE)**

**Department of Diagnostic Imaging**

**IWK Health Centre & Dalhousie University**

**Union Status: Non-Union**

**Posting Date:**

**Closing Date: Open until Filled**

**Start Date: January 1, 2025**

IWK Health Centre, Department of Diagnostic Imaging is seeking applications for a full-time Radiologist with training and qualification in Pediatric Interventional Radiology and/or other pediatric radiology subspecialty (ie neuroradiology). The successful candidate will join a faculty of 9 radiologists at a busy multi-subspecialty Pediatric and Women's tertiary care academic center. This position offers the unique opportunity to participate in development and growth of pediatric interventional radiology in the Maritime provinces over the coming years. Participation in diagnostic pediatric, obstetric/ fetal, and pelvic imaging in the daily schedule will be expected as well.

Teaching and clinical research are integral parts of the role. The IWK Department of Diagnostic Imaging is affiliated with Dalhousie University Faculty of Medicine and offers pediatric radiology and fetal imaging training as a part of residency in Radiology. Additionally, the department supports a Pediatric Radiology Residency Program, accredited by the Royal College of Physicians and Surgeons (Canada). Candidates should demonstrate strong communication skills and dedication to advance academic radiology.

The successful candidate will have an appointment as assistant professor with Dalhousie University, Department of Radiology that includes research opportunities and teaching responsibilities for undergraduate/graduate students in the Faculty of Medicine. As well, the department participates in training of fellows and residents at the IWK. Financial compensation will be commensurate with standard compensation package based on the group's practise plan and revenue share model.

IWK Health Centre is a premier academic medical center of Dalhousie University's multi-campus health centre system. This unique environment brings together the best in patient care, ground-breaking research and innovative medical education. The hospital is a Center of Excellence and is a referral hospital for women's and pediatric health care in Atlantic Canada. In addition, IWK has an active program of research and innovation.

This opportunity offers a collegial work environment, a competitive package, and an excellent quality of practice. The clinical practice conducts nearly 70,000 clinical

radiological exams per year. These exams include various advanced imaging techniques, including general radiography, fluoroscopy, CT, MRI, US, NM, and interventional procedure-based modalities. There is ongoing investment in the Pediatric Interventional Radiology Program both from the province and the health centre. Enthusiastic candidates will be fully supported in both clinical and research IR endeavours.

Halifax, Nova Scotia is a beautiful and highly desirable location. It is surrounded by Atlantic Ocean and has numerous outdoor activities. Proximity to outdoor activities is coupled with the comforts of city living. One can spend the weekend hiking in the Cape Breton Highlands, touring the shores of the Bay of Fundy, or partaking in sports, culture, and entertainment events in the city. The growing community is diverse, youthful, and energetic.

Interested applicants should send candidate profile/CV, cover letter (candidate statement) and contact information for three references (one of which must be fellowship program director) to the email address below.

*IWK Health Center and Dalhousie University hire based on merit and is committed to employment equity. In accordance with Canadian Immigration requirements, this advertisement is first directed to Canadian citizens and permanent residents, but international candidates are invited to apply.*

*We encourage applications from all qualified individuals, especially including Aboriginal, persons with disabilities and visible minorities.*
