

Thunder Bay Regional Health Sciences Centre Interventional Radiologist Opportunity in Thunder Bay, Ontario, Canada

The Diagnostic Imaging Department at Thunder Bay Regional Health Sciences Centre (TBRHSC) is currently seeking a fellowship trained **Interventional Radiologist** to join our Physician group.

Position Description:

The radiologist will conduct both diagnostic and therapeutic interventional procedures, including angiography, dialysis fistula maintenance, and arterial stenting. Additionally, they will be tasked with reporting on a variety of diagnostic studies, such as X-rays, ultrasounds, MRIs, and CT scans. Furthermore, they will work in conjunction with the Cardiovascular Program.

Skills & Assets:

The candidate will have specialist certification from the Royal College of Physicians and Surgeons of Ontario, or equivalent, and will be eligible for licensure with the College of Physicians and Surgeons of Ontario. Canadians and IMG (international Medical Graduates) candidates are all welcome to apply. The eligible candidate will be affiliated with the Northern Ontario School of Medicine University, with academic rank commensurate with their qualifications and experience. We are looking for motivated individuals who wish to provide excellent clinical services in a collaborative and collegial work environment. Research opportunities for physicians are offered through the Thunder Bay Regional Health Research Institute (TBRHRI).

Serving Northwestern Ontario

Thunder Bay Regional Health Sciences Centre serves the **Northwestern Ontario region**, from White River to the Manitoba border and from Hudson Bay to the US border. It is the **only acute care hospital** in the City of Thunder Bay and operates one of the busiest emergency departments in Canada. As the only tertiary hospital in the region, the hospital also plays a crucial role as a **referral center for 10 smaller hospitals**. Our commitment to meeting the distinctive healthcare needs of our region truly sets us apart from the rest.

Research Will Transform the Future of Health Care

The Thunder Bay Regional Health Research Institute is distinct. Until very recently, health **research facilities of this calibre** would be housed in a major metropolitan centre. Indeed, our scientists found that Thunder Bay's size and status as a regional hub has **tremendous advantages**, particularly access to collaborators. We are able to focus our research to address the health care challenges unique to our region.

Academics & Learning

Our hospital values the crucial role that learners play in our institution and is dedicated to **shaping future health care professionals** through partnerships with academic institutions like the Northern Ontario School of Medicine University. With a **state-of-the-art Simulation Centre**, practitioners can enhance their expertise in a secure and supervised setting

Living in Thunder Bay

In addition to working at a worldclass academic healthcare facility, you also have the city of Thunder Bay and surrounding area at your back door. We are known for our access to the **outdoors: hiking, fishing, camping, snowshoeing, skiing**; we have it all!
