

The Department of Diagnostic Imaging is seeking a Vascular Interventional Radiologist-Associate

The Department of Diagnostic Imaging, Division of Radiology at William Osler Health System (Osler) is seeking a Vascular Interventional Radiologist to join our dynamic and growing team. This position is sited at Brampton Civic Hospital, serving a diverse and rapidly expanding patient population. Remuneration is determined by the William Osler Radiology Association (WORA) Practice Plan, which is comprised of the on-site Brampton radiologists.

Responsibilities

- Provide comprehensive Vascular and Interventional Radiology (VIR) services, including:
 - **Vascular Procedures:**
 - Peripheral vascular disease including critical limb ischemia management, Embolizations, Dialysis access creation and maintenance (e.g., fistulograms, angioplasties, thrombectomies, catheter placements including peritoneal) and Endovascular Aneurysm Repair (EVAR)
 - **Body Interventions:**
 - TIPS, Biliary and GI interventions, Emerging procedures such as tumor embolization and radiofrequency ablation (RFA), as part of Osler's commitment to expanding interventional oncology services
- Competently perform core diagnostic imaging modalities, including MRI, CT, ultrasound, radiography, and fluoroscopic-guided procedures. Provide on-site and remote coverage, including inpatient and outpatient study interpretation and procedures, with participation in weekend, evening, and late-night call shifts across all Osler sites. Collaborate closely with Osler's vascular surgeons, nephrologists, and oncologists to deliver comprehensive, patient-centered care. Contribute to clinical education as part of Osler's academic mandate, including supporting the training of medical students and residents from Toronto Metropolitan University (TMU)

Qualifications

The candidate must have a certification in Diagnostic Radiology from the Royal College of Physicians and Surgeons of Canada (FRCPC) with additional fellowship training in Vascular and Interventional Radiology. License to practice and in good standing with the College of Physicians and Surgeons of Ontario (CPSO). Expertise in Vascular and Interventional Radiology, and interest in expanding scope of procedures at Osler. Proficiency in MRI, CT, ultrasound, radiography, and fluoroscopic-guided procedures. Strong critical thinking, problem-solving, and interpersonal skills. Excellent communication skills in English are essential. Additional language proficiency is an asset given the diverse community served. Prior experience in clinical teaching or research is an asset, with opportunities for academic appointment at TMU. Alignment with Osler's values of Respect, Excellence, Service, Compassion, Innovation, and Collaboration. Physicians are encouraged to apply for an academic appointment with the Faculty of Medicine at TMU as part of Osler's academic transition.

About the Program

The Diagnostic Imaging department at Osler is a fast-paced, collaborative environment with high patient volumes and cutting-edge technology. The department is committed to expanding its interventional capabilities in collaboration with Osler's vascular surgery, nephrology, and oncology programs.

About Osler

William Osler Health System (Osler) includes Brampton Civic Hospital, Etobicoke General Hospital, and Peel Memorial Centre for Integrated Health & Wellness. Serving 1.3 million residents of Brampton, Etobicoke and surrounding communities within the Central West region and nationally recognized for its commitment to patient safety. Osler is Accredited with Exemplary Standing, the highest rating a Canadian hospital can receive.

Osler is an integral clinical partner in the development of Ontario's New Medical School, in partnership with Toronto Metropolitan University (TMU) and as part of its transition to an Academic Health Centre, and there is ample opportunity to participate in clinical education with medical students and residents.
