WORKFLOW

General structure	Extensive exposure to both cardiac CT (congenital and non-congenital including structural heart applications) and cardiac MRI (congenital and non-congenital) with individual days devoted to each modality.
Are there times when fellows overlap and share work?	Yes – according to the number of fellows in the department at a given time.
How many rounds are you expected to attend? Contribute to?	Cardiology Case Rounds (Thursday mornings), Research Rounds (bi-weekly) and Journal Club (monthly). Attendance and active contribution expected at all rounds.
Other than rounds, are there teaching responsibilities?	Yes – to Radiology and Cardiology residents and medical students on rotation

How procedure focused is the fellowship?	Non-procedural
Which procedures are you responsible for?	N/A
Additional Comments about Workflow:	
RESEARCH	
What are the Research Expectations?	Ample opportunity to participate in multiple collaborative projects running within the department simultaneously at any given time. Focus of the project can be tailored to individual fellows' interests. The department is well renowned internationally for its high publication output.
How much protected time is given for research (per week)?	Depends on the number of fellows in the department – 1 in 3 days are devoted to academia with 3 fellows on the roster.
CALL	
General	One weekend every four weeks for Radiologists
Responsibilities on Call:	Plain films only (approx.. 100-150/per day)
Is there a call stipend?	No
Additional comments about call
