WORKFLOW

General structure	<p>Rotation is based at FMC</p> <p>The fellowship year consists of clinical time spent in general radiography, ultrasound, CT and MRI, in approximately four-week blocks. One-half a day a week is reserved for research, teaching and to allow some flexibility as needed.</p> <p>Clinical responsibilities include:</p> <p>Exam protocols, patient scanning (when required), conducting procedures, for example ultrasound guided biopsies, exam interpretation, detailed review with the attending staff radiologist, dictating exams with regular consultation with clinicians as required.</p>
Are there times when fellows overlap and share work?	Sharing work with 2-3 residents. Volume is not an issue.

How many rounds are you expected to attend? Contribute to?	Attend: Assisting with regular resident view boxing or monitoring Contribute to: Teaching on a daily basis
Other than rounds, are there teaching responsibilities?	
How procedure focused is the fellowship?	Moderate focus
Which procedures are you responsible for?	Ultrasound-guided, fluoroscopic-guided and CT-guided fine-needle aspiration and core biopsies as well as drainage catheter insertions
Additional Comments about Workflow:	
RESEARCH	
What are the Research Expectations?	Research is strongly encouraged and the fellow is expected to participate in and complete at least one major project during the year as well as be involved in ongoing departmental research.
How much protected time is given for research (per week)?	
CALL	
General
